

Hi Bill

Dec 20

So decembers letter is about the weather. At the begining of december we got a bit of snow during school. But it didn't stick and it all melted away super fast. But for the next few days it was super cold. Like in the minus' and we never get that in Victoria. Then our normal weather of rain and some sun came back. For a little while so it was rainy and cloudy but not really sunny. Then yesterday I hear from my friend that it was going to snow. This morning

I was talking to mom when  
I remembered? what my friend  
said. It did snow. But then it  
rained so it was mostly just  
Slippery slush. Then later I went  
to my friends house in Langford.  
There was more snow. I have decided  
that there will be another ice  
age Sometime. soon. Cause there's  
even snow in Egypt. Egypt!  
Anywas, or just Victoria is Bipolar.  
See you tomorrow ☺

Love

Emma
