Hi Bill.

May or

April letter

So there are two parts to this letter. One you won't be getting until you return to the suite after I have been there. It's a gift for you and Fran, but mostly Fran because she is the one in the pictures. You will appreciate my artistic talents. It was a guide bridging activity but I didn't realise

it was a mother's day activity, so I brought pictures from one of our times together. You'll just have to see next time you come out. I also did a Guide Camp in April. We learned about trees, and cooked Grilled cheese. It was with my guide Unit that I volunteer with. I will miss them. Noitee how this card is reminiscent of one of our trips?

Love Samantha U ♡
