

Hi Bill,

June letter?

I guess I have to do a June letter. My June was good. School was finishing up, we had our Final exams. I had an English and French Provincial, which went okay, and then I had a Bio 12 Final as well. That one was harder. I studied but it was a lot of memorisation. I passed the class which is all I wanted. Then I worked in the kitchen until the last day of school. It was fun. I had to work on a couple slide shows for the graduation. They were good. There was one of memories from our

Highschool which was 8-12. the other was pictures from our international trips. They were good. Then we took pictures outside of everyone all dressed up. After that we went to dinner at the officer's mess in Esquimalt. More pictures were taken. We also sang happy Birthday to my friend because grad was on her birthday. It was a lot of fun. And now I'm all graduated. A new chapter is coming, and fast. Almost half the summer is gone, but that's another story for another letter. Love

♥ Samantha
