

Hi Bill.

July letter

So far a lot of my summer has just been working. Most of the time in July was spent at Marigold Park. There were often 40 kids there. It's a pretty busy park in July. However in August the numbers go down. There were a couple days

in July though where Paige, the Youth leader I at Marigold got a call and I was asked if I could go to, - once it was Copley, the other time it was Horner, another park for the rest of the day because the other leaders were sick. But I love camp. We do out trips to the water park and other parks. The weeks are themed like science week, music week, water week

and a whole bunch of other themes I can't remember. There were ~~ten~~ weeks of summer this year. Though maybe next year between summer and the end of the school year I could come out to Montreal for a little bit.

Love

♥
