

Hi Bill,

Jan 31

It is now the last day of January and I still haven't written a letter. Mainly because nothing has happened. Other than school I haven't done anything interesting. I still hate waking up in the morning and my days still feel super long. I looked a bit for a job, and did soccer. I have had a cold and sometimes sinus issues for about a month. Since before you guys left from Victoria. How bad.

is that. I just want it to go away. Classes have been just as boring, but Kitchen is just as fun as always.

Well I hope you have a nice story for me about whatever. You always seem to send back a novel.

Love
